save \$200 for non-remote early registration

Included in this workshop:

- 16 PMI-approved PDUs
- 3-year certification upon successful exam completion
- The 300+ pages SCRUMstudy Scrum Body of Knowledge (SBOK™)
- Product Owner Workbook, Case Study, Planning Poker cards, Scrum-on-a-page learning aid
- Two days of face-to-face learning, role playing, and coaching
- Online certification exam at the end of the workshop through VMEdU / SCRUMstudy

Joe's latest agile articles:

[Aligning the PMO . . .](#)

[Establishing Agile Metrics](#)

[Countering 5 Barriers to Enterprise Agility](#)

[. . . Measurements in an Agile World](#)

[Impediments to Agile Success](#)

Candidates for this workshop include those wishing to:

- Step-up their understanding of agile in general and Scrum in particular as a Product Owner
- Fast track their contributions as business partners and product developers
- Expand their skills and practice the most widely applied agile approach in IT and business
- Enhance their professional competencies and potential future opportunities
- Explore the agile mindset, scrum roles, work products, ceremonies (meetings), & principles

Objectives:

- Prepare teams, leadership, and business partners to make informed choices about their practices
- Understand, apply, and contribute to the success of scrum-based work as a Scrum team member and the VOC
- Improve overall knowledge of Scrum, the most utilized agile framework
- Explore the significance of teams and roles—understand the 5Cs of team members
- Foster discussion on optimizing team usage of agile methods

Topics . . .

- Agile & Scrum Principles, Declaration of Interdependence
- Preparing the organization for an agile mindset
- Roles: Development Team, Scrum Master, Product Owner
- Product Owner and the Voice of the Customer
- Roadmaps, stories, tasks, & threshold planning
- The Product Owner role in the initiating, executing, reviewing, and releasing of products and services
- Sprints, epics, personas, story points, product & sprint backlogs
